WEATHER-IMPACTED SMALL PRODUCER RELIEF

Ventura County Resource Conservation District (VCRCD) has **funding to support agricultural operations impacted by extreme weather events!** Extreme weather events include but are not limited to heat waves, freezes, flooding, heavy downpours, wildfires, and severe windstorms.

Eligible small and medium scale California agricultural producers can apply for up to \$20,000 in relief funds for extreme weather events from 2017 onwards. Learn more about this grant's eligibility and application on VCRCD's website.

Application assistance is FREE!
